SKILLS

- **Languages**: C++, JavaScript, C, PHP
- **Frameworks/Libraries**: HTML5, Tailwind, NodeJS, ReactJS
- **Tools/Platforms**: MySQL, Postman, VS Code, Github,Vercel
- **Databases**: MongoDB, PostgreSQL, MySQL
- **Soft Skills**: Team Player, Problem Solver, Adaptable, Time Management

PROJECTS

Integrated Healthcare Portal | ReactJs, NodeJS, MongoDB, PostgreSQL | Link — Sep' 25 - Dec' 25

- Engineered a smart healthcare portal used to securely store, retrieve, and manage patient records, improving operational efficiency and data accessibility.
- Enhanced a dynamic healthcare website using ReactJS and NodeJS, implementing interactive components and a responsive modern design.
- Optimized system performance and responsiveness, improving data retrieval speed and overall user experience.

Hospital Patient Record System | C++, Fundamentals of DSA | Link — Jun' 25 - Aug' 25

- Developed a Hospital Patient Record System using OOPs principles to ensure clean architecture, modular structure, and efficient data handling.
- Implemented core DSA concepts such as linked lists, queues, and search operations to optimize patient record retrieval and accelerate system performance.
- Designed user-friendly workflows enabling smooth patient registration, record updates, and quick access to medical histories, improving overall management efficiency.

TravelBot | ReactJs, HTML5, CSS3 | Link — Feb' 25 - Apr' 25

- Crafted a Travelbot using ReactJS, HTML5, and CSS3, delivering a fast and dynamic user interface.
- Constructed a responsive web application using HTML5, CSS3, and ReactJS, enabling dynamic content rendering and seamless user interaction.
- Enabled chatbot workflows streamlined travel planning, supported dynamic itinerary updates, and provided quick access, thereby enhancing overall user efficiency.

TRAINING | Fundamentals of Data Structure using C++ | Certificate — Jun' 25 – Jul' 25

- Completed an immersive Summer Training that focused on C++ programming and DSA fundamentals.
- Built a strong foundation in algorithms, problem-solving, and efficient coding.
- Gained hands-on experience implementing core data structures and concepts

CERTIFICATES

- Bits and Bytes of Computer Networking | Certificate — Sep' 2025
- Java (NeoColab) | Certificate — May' 2025
- DSA, C++ (NeoColab) | Certificate — Dec' 2024
- Introduction to Hardware and Operating System | Certificate — Sep' 2024

EXTRA CURRICULAR

Hackathon | Certificate

- Participated in a 36-hour Web Development Hackathon, collaborating on coding, debugging, and presenting solutions.
- Solved 50+ Coding Problems across leetcode, CodeChef, HackerRank and Geeks for Geeks with the strong DSA performance in array, functions, Linear and Binary Search.

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.21** — Aug' 2023 - Present
- **Kendriya Vidyalaya** — Raebareli, Uttar Pradesh
  Intermediate; **Percentage: 79.4** — Apr' 2021 – Mar' 2022
- **Kendriya Vidyalaya** — Raebareli, Uttar Pradesh
  Matriculation; **Percentage: 78.6** — Apr' 2019 – Mar' 2020
