SKILLS

Languages:	C, C++, JavaScript, HTML5
Frameworks/Libraries:	TailwindCSS, NodeJS, ReactJS
Tools/Platforms:	MongoDB Compass, Postman, VS Code, Github, Vercel, Render
Databases:	MongoDB, MySQL
Soft Skills:	Collaboration, Problem Solver, Adaptable, Time Management

PROJECTS

A.I Investment Research Agent ReactJs, NodeJs, LangChain, TailwindCSS Live	Jun' 26 - Jul' 26
- Architected this Agent to deliver a dynamic financial dashboard that visualizes real-time market data with having accuracy upto 90%, also risk maps, and business models. - Enabled an autonomous decision engine utilizing LangChain and Google Gemini API, capable of synthesizing live financial data to calculate dynamic (0-100) investment scores and generate contextual research notes. - Executed robust backend error handling and intelligent fallback mechanisms, ensuring an uninterrupted user experience and reliable decision generation even when external financial APIs fail.	
Deep Packet Inspection C++, Multithreading, Network Packet Analyzer Github	Jan' 26 - Apr' 26
- Applied Object-Oriented Programming (OOP) principles and efficient data structures for optimized packet analysis. - Implemented multithreading using 2 load balancer threads to process packets in parallel, improving throughput by 65% and reducing real-time traffic analysis latency by 55%, achieving sub-5ms packet processing time. - Integrated packet parsing and filtering techniques to detect anomalies and security threats with 95%+ accuracy.	
Integrated Healthcare Portal ReactJs, NodeJS, MongoDB, PostgreSQL Live	Sep' 25 - Dec' 25
- Engineered a smart healthcare portal used to securely store, retrieve, and manage patient records for 500+ patients, improving operational efficiency by 40% and reducing data retrieval time. - Enhanced a dynamic healthcare website using ReactJS and NodeJS, implementing interactive components and a responsive user-friendly interface. - Optimized system performance and responsiveness, improving data retrieval speed by 70% and overall user.	

TRAINING

Fundamentals of Data Structure using C++ Certificate	Jun' 25 – Jul' 25
- Completed an immersive training that focus on fundamental of data structure and algorithms. - Gained practical experience in writing efficient and scalable C++ programs for real-world problem solving. - Strengthened debugging, logical thinking, and code optimization abilities through regular coding practice.	

CERTIFICATES

Oracle Data Platform Oracle	May' 2026
AI foundations Oracle	May' 2026
Cloud Computing NPTEL	May' 2026
Introduction to Hardware and Operating System Coursera	Sep' 2024

EXTRA CURRICULAR

Hackathon Certificate	
- Participated in a 36-hour Web Development Hackathon, collaborating on coding, debugging, and presenting solutions. - Earned a LeetCode badge for maintaining a 100-day coding streak and consistently solving algorithmic problems. - Solved 250+ Coding Problems across LeetCode, HackerRank and Geeks for Geeks with the strong DSA performance in array, recursion, functions, Linked List, Stack, Queue.	

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.40	Aug' 2023 - Present
Kendriya Vidyalaya	Raebareli, Uttar Pradesh
Intermediate; Percentage: 79.4	Apr' 2021 – Mar' 2022
Kendriya Vidyalaya	Raebareli, Uttar Pradesh
Matriculation; Percentage: 78.6	Apr' 2019 – Mar' 2020
